Survivorship. Youve survived the shock of a breast cancer diagnosis, made decisions on treatments options, kept countless appointments, undergone procedures, and taken medications.

Breast Cancer | Breast Cancer Symptoms | MedlinePlus

Breast cancer: Breast cancer, disease characterized by the growth of malignant cells in the mammary glands. Breast cancer can strike males and females, although women are about 100 times more likely to develop the disease than men. Most cancers in female breasts form shortly before, during, or after menopause.

World map of Average Breast Cup Size in the World by ...
